RENOVED SURGEONS

ANE[®]

HEALTH & PLASTIC SURGERY SERVICES

PATIENT SERVICES - PLASTIC SURGERY

The vascular surgery experts reshape the structure of the hand and wrist to relieve symptoms of swelling and discomfort. This is done with either a minimally-invasive approach or open surgery, depending on the severity of the condition. The vascular surgery experts provide significant improvements in function. Our vascular surgery center operates in a state-of-the-art, modern facility.

What Are Facial Plastic Surgeries?

- Breast Augmentation/Implantation
- Breast Lift (Mastopexy)
- Breast Reduction (Reduction Mastopexy)
- Gynecomastia/Male Breast Reduction
- Hair Surgery (Transplants)
- Eyelid Surgery (Blepharoplasty)
- Facelift (Rhytidectomy)
- Botox Injections
- Endoscopy
- Eyeliner
- Nose Surgery (Rhinoplasty)
- Tummy Tuck (Abdominoplasty)
- Upper Limb/Hand/Ankle/Heel/Instep/Toes Surgery
- Resurfacing of Face & Neck
- Lipid Injections Surgery
- Otoplasty
- Lower Extremity Surgery
- Medical Surgery
- Pediatric/Infant Longevity Surgery

What Are Facial Plastic Surgeries?

Reconstructive surgery can help patients suffering from injuries, congenital defects, developmental abnormalities, infections, trauma or other problems that affect the form or function of the body.

Reconstructive surgeons are experts in treating various conditions such as:

- Breast reconstruction
- Burn scar reconstruction
- Hand surgery
- Maxillofacial reconstruction
- Pediatric reconstructive surgery
- Post-oncology care

What Is a Hair Transplant?

A hair transplantation is a very safe surgical procedure to help people with receding hair lines, balding eyebrows – Or thinning hair. Hair transplant specialists remove the permanent (genetically) and stable hair follicles from the permanent donor area of the scalp (back & sides of the head) and then graft these into balding areas of the scalp. Under a physician's expert care, you can look forward to a new look.

What Are Hair Transplants?

- Alopecia areata/alopecia totalis
- Alopecia and trichotillomania
- Psoriasis and/or seborrheic dermatitis
- People who suffer from a chronic condition, such as thyroid

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

- ▶ A
- ▶ B
- ▶ C
- ▶ D
- ▶ E. None of the above

QUESTION 3 (10%)

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

- ▶ A
- ▶ B
- ▶ C
- ▶ D
- ▶ E. None of the above

QUESTION 4 (10%)

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

- ▶ A
- ▶ B
- ▶ C
- ▶ D
- ▶ E. None of the above

QUESTION 5 (10%)

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

- ▶ A
- ▶ B
- ▶ C
- ▶ D
- ▶ E. None of the above

QUESTION 6 (10%)

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

Which of the following is NOT a common cause of acute otitis media?
A. Streptococcus pneumoniae
B. Haemophilus influenzae
C. Staphylococcus aureus
D. Moraxella catarrhalis

- ▶ A
- ▶ B
- ▶ C
- ▶ D
